

# Questions to consider for a reading specialist

- What programs do you use or will you use to help my child?
- Does this program use Orton-Gillingham methods to remediate reading?
- How will you test to find out what my child's reading struggles are?
- Will you give me direction as to what I can do at home to help my child?
- How often will you need to see my child? How much are your services?
- What can I expect to see regarding improvement for my child? Would you be willing to keep me up to date on how he/she is doing?
- What accommodations do you think my child would need in a classroom, or with schoolwork in general?
- Do you think my child needs outside assessment for dyslexia or any other learning disability? Will you tell me if you see any indicators that my child's struggles are something I need to mention to my pediatrician or other doctor?
- Will you share with me what your goals are for my child?
